Student Information for Classroom Placement

This form must be in the office by Thursday, May 02, 2018 in order to be considered.

Student Name _____ Grade (next year) _____

Classroom teachers, in consultation with the principal, set up class lists for the following year. Teachers of your child know your child's learning and social needs, and also understand the other students in the class. Because placements take into consideration numerous elements, we cannot guarantee certain placements for any student. We will, however, do our best to place your child in the best setting for him/her. If you would like to provide additional input that your child's teacher does not yet have, please briefly comment as appropriate. **We ask that you not request a specific teacher; because of the number of factors to be considered, we are unable to honor such requests.**

1. Learning needs for consideration. My child needs….

2. Social or emotional needs for consideration:

3. If you are requesting a friend for your child, please write down the names of 4 -5 possible friends to be placed in your child's room. We cannot guarantee one specific friend in the class.
